VISHAY SETS THE RECORD STRAIGHT

Urges International Rectifier Stockholders to Vote **FOR** Experienced and Independent Director Nominees on the **BLUE** Proxy Card

Malvern, PA – October 8, 2008 – Vishay Intertechnology, Inc. (NYSE: VSH) today issued the following statement regarding the upcoming election of directors at International Rectifier Corporation's (NYSE: IRF) delayed 2007 Annual Meeting, scheduled to be held on October 10, 2008:

International Rectifier has been issuing a lot of statements lately about Vishay, our \$23 all-cash premium offer and the three independent nominees we are proposing for your Board. They are trying to make this matter complicated; we believe it is straightforward. Here is what you, International Rectifier's stockholders, should know as you cast your vote at the upcoming much-delayed 2007 annual meeting:

- Vishay has made a \$23 all-cash offer. This price offers a substantial premium for International Rectifier stockholders. Even before the most recent market turmoil, leading analysts set a price target for International Rectifier stock of \$16 per share.
 - The key to International Rectifier's rejection of Vishay's premium offer is its highly aggressive "turnaround" plan (the "strategic roadmap"). International Rectifier improved this plan dramatically – and we believe, not credibly – shortly after Vishay made its offer.
 - Vishay is willing to consider further increasing its \$23 offer. We have requested International Rectifier to substantiate its turnaround plan – including the \$60 million reduction in cost of goods sold and the projected substantial increase in revenues and gross margin. If International Rectifier can demonstrate additional value that we have overlooked, we will further increase our offer price.
 - The current members of International Rectifier's Board have continually refused to meet or negotiate with Vishay. However, in response to our offer, they acted immediately to improve their own benefits package and their own protections against liability for their actions. The Board has spent enormous sums to address accounting improprieties that occurred on its watch – and paid themselves so well that it is fair to question their independence.
 - The three individuals Vishay has nominated as directors are highly qualified and truly independent. They are not committed to Vishay's offer; **they are committed only to fair consideration of any and all proposals to maximize stockholder value.**
 - The leading independent proxy advisory firm, RiskMetrics (formerly Institutional Shareholder Services), recommends that stockholders vote for Vishay's nominees. RiskMetrics (ISS) correctly notes that "since the IRF board is staggered, Vishay will not capture 'control' of the board" so "it appears **the downside risk of supporting the dissident nominees is minimal**" while "**the downside risk of not supporting the dissident nominees could be significant.**"
 - This election is about whether you, the stockholders, will have the opportunity to consider and choose to accept the Vishay offer or any other possible value-maximizing transaction. Don't entrust the future of your investment to what we believe is an entrenched and self-serving Board. **Without your support in electing three new directors, Vishay will not proceed with its offer.**
-

THE CHOICE IS CLEAR. Vote the BLUE proxy today.

International Rectifier stockholders are reminded that their vote is very important regardless of the number of shares of common stock they own. Whether or not stockholders are able to attend International Rectifier's Annual Meeting in person, they should submit a **BLUE** proxy by Internet or by telephone as described on the **BLUE** proxy card, or sign and date the **BLUE** proxy card and return it as soon as possible.

Some of the factors which could cause results to differ materially from the expectations expressed in these forward-looking statements include the following: the possibility that Vishay's offer to acquire International Rectifier will not be consummated for any number of reasons, including the failure of the stockholders of International Rectifier to support the proposed transaction, the failure of any conditions to Vishay's tender offer to be satisfied, or the failure to obtain financing on terms acceptable to Vishay; the possibility that if approved, the closing of the acquisition may be delayed; the effect of the announcement of the offer on Vishay's and International Rectifier's strategic relationships, operating results and business generally, including the ability to retain key employees; fees and expenses incurred in connection with Vishay's unsolicited acquisition proposal, director nominations and stockholder proposals; Vishay's ability to successfully integrate International Rectifier's operations and employees and achieve synergies; the risk that Vishay's acquisition proposal will make it more difficult for Vishay to pursue other strategic opportunities; the risk that stockholder litigation in connection with Vishay's unsolicited proposal, or otherwise, may result in significant costs of defense, indemnification and liability; general economic conditions; and other factors described in Vishay's SEC filings (including Vishay's Annual Report on Form 10-K for the year ended December 31, 2007 and Quarterly Reports on Form 10-Q for the quarters ended March 29, 2008 and June 28, 2008). If any of these risks or uncertainties materializes, the acquisition may not be consummated, the potential benefits of the acquisition may not be realized, Vishay's and/or International Rectifier's operating results and financial performance could suffer, and actual results could differ materi-

ally from the expectations described in these forward-looking statements. All forward-looking statements in this news release are qualified by these cautionary statements and are made only as of the date of this news release. Vishay undertakes no duty to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise.
