Dear International Rectifier Stockholder,

At International Rectifier's long overdue 2007 Annual Meeting on October 10<sup>th</sup>, you will have an opportunity to vote on the **BLUE** proxy card **FOR** three well qualified independent director nominees and proposed Bylaw amendments that would require, among other things, that International Rectifier — like other companies — hold its 2008 Annual Meeting in 2008! By electing directors who are committed to maximizing the value of your investment, you will send a strong message that International Rectifier's Board cannot ignore.

#### **VISHAY'S \$23.00 PER SHARE CASH OFFER PROVIDES SUPERIOR VALUE**

**Vishay's \$23.00 per share all-cash offer represents full, fair and immediate value for your investment in International Rectifier.** \$23.00 per share represents a premium of 30% over International Rectifier's average closing price for the 30 trading days preceding our original acquisition proposal, and a premium of more than 70% over International Rectifier's enterprise value<sup>1</sup> for that period.

Since we announced our acquisition proposal on August 15, the Philadelphia Semiconductor Sector Index (SOXX) has dropped 15% and the trading prices of International Rectifier's peer group have dropped 21%.<sup>2</sup> Two leading analysts currently have a \$16 price target for International Rectifier.<sup>3</sup> **One of them recently said that, absent Vishay's premium offer, International Rectifier's stock "would likely fall below the pre-deal price toward a C09-based fundamental value near \$16 . . ."**<sup>4</sup>

#### **DON'T BELIEVE INTERNATIONAL RECTIFIER'S "AGGRESSIVE" AND "OPTIMISTIC" ROADMAP**

International Rectifier's Board of Directors has refused to negotiate a mutually beneficial transaction with Vishay, and instead is promoting a three-year turnaround "roadmap" that is, as a leading independent research analyst described, "too aggressive" and "an optimistic outlook indeed."<sup>5</sup> The dramatic "improvements" that International Rectifier is now touting, only six weeks after first announcing its already speculative plan, raise serious credibility questions. In its Form 10-K filed on September 15, 2008, International Rectifier emphasized the serious risks facing it and its "strategic turnaround program," including ongoing material weaknesses in its financial controls.

#### **ELECT THREE HIGHLY QUALIFIED, INDEPENDENT DIRECTORS**

In refusing to recognize the merits of Vishay's all-cash premium offer, we believe the International Rectifier Board has ignored its responsibilities to maximize the value of your investment. We believe the Board should be held accountable for that and also for its failed stewardship of a company that is spending over \$125 million to investigate accounting and tax improprieties that occurred on its watch. In this regard, we note that half the

Board was in office during the self described “dark chapter” and the other half was appointed by them without any stockholder approval. To add insult to injury, the Board members recently amended the terms of their options package to provide accelerated benefits if you vote them out of office. **At the long-delayed but hastily called Annual Meeting on October 10<sup>th</sup>, you will have an opportunity to send a strong message to the incumbent Board by electing three highly qualified, independent directors who are committed to maximizing value for all International Rectifier stockholders.**

**VOTE THE BLUE PROXY CARD TODAY TO KEEP THE VISHAY TRANSACTION ALIVE**

We urge you to send a message to the International Rectifier Board and vote **FOR** the election of three independent nominees and the proposed Bylaw amendments listed on the **BLUE** proxy card TODAY. Vishay is committed to pursuing a transaction with International Rectifier but **your support is essential for us to move forward with our proposed acquisition of International Rectifier.**

Very truly yours,

Dr. Felix Zandman  
Executive Chairman

Dr. Gerald Paul  
Chief Executive Officer
