1. General

BCcomponents Holdings B.V. ("the company"), having its legal seat in Eindhoven, The Netherlands, is engaged in the development of a broad line of electronic components.

The company was disentangled from Philips Electronics as of January 1, 1999 and for this transaction a shelf company was used (later renamed into BCcomponents Holdings B.V.).

A summary of the management report is included in the annual report. The full management report is available at the office of the company upon request.

2. Principles of Consolidation

All significant intercompany balances and transactions are eliminated in consolidation. The consolidated financial statements integrally include the financial statements of the company and the following group companies, which are economically and organisationally linked to the company:

Name -----	Country -----	Percentage Ownership -----
BCcomponents Holdings (Netherlands) B.V.	Netherlands	100%
BCcomponents B.V.	Netherlands	100%
BCcomponents International B.V.	Netherlands	100%
BCcomponents Austria GmbH	Austria	100%
BCcomponents Holdings GmbH	Germany	100%
BCcomponents Beyschlag GmbH	Germany	100%
BCcomponents Vertriebs GmbH	Germany	100%
BC Components, Inc.	USA	100%
BCcomponents SAS	France	100%
BCcomponents Estate N.V. (previously known as BCcomponents Holding N.V.)	Belgium	100%
BCcomponents N.V.	Belgium	100%
BCcomponents UK Ltd.	United Kingdom	100%
BC Components South Europe SRL	Italy	100%
Valen Ltd.	Hong Kong	100%
BCcomponents (Shanghai) Company Ltd.	China	95%
BCcomponents Trading (Shanghai) Co. Ltd.	China	100%
BCcomponents India Pvt. Ltd.	India	100%
BCcomponents Hong Kong Ltd.	Hong Kong	100%
BCcomponents China Ltd.	Hong Kong	100%

BCcomponents Singapore Pte. Ltd.	Singapore	100%
BCcomponents (Taiwan) Ltd.	Taiwan	100%

In 2001, BC Components Inc. started a joint venture of 49% in Capfoil, LLC. This joint venture is not consolidated, but stated at its net asset value presented under financial fixed assets.

The relevant part of total group equity and net result attributable to third parties is included as minority interest in the consolidated balance sheet and statement of income respectively.

Assets, shareholders' equity and liabilities of foreign group companies not denominated in euros are for consolidation purposes translated into euros at the rates of exchange prevailing at yearend. Income and expense are translated at the average rates of exchange for the year. Gains and losses resulting from the translation are recorded directly in shareholders' equity.

3. Accounting Principles

a) General

The accounting principles of the company are summarized below. These accounting principles have all been applied consistently throughout the year and the preceding year.

Assets and liabilities are stated at face value unless indicated otherwise.

Assets and liabilities denominated in foreign currencies are translated into euros at the rates of exchange prevailing at yearend. Transactions in foreign currencies are translated at the rates of exchange prevailing at the date of the transaction. The exchange results are recorded under financial income and expense in the statement of income.

b) Comparative figures

Certain reclassifications have been made to the 2000 financial statements in order to conform to the current year's presentation.

c) Intangible fixed assets

Capitalized costs in connection with software development included in intangible fixed assets are amortized on a straight-line basis over a period of 2-5 years.

Goodwill originating from the acquisition of investments represents the difference of the (company's share in) net asset value and the acquisition cost of the investments at the time of the acquisition.

Intangible fixed assets are revalued in case of any permanent impairment.

d) Tangible fixed assets

Tangible fixed assets are stated at the acquisition cost, less straight-line depreciation. The depreciation is calculated on the basis of acquisition cost less residual value and the estimated useful life of the related asset. The estimated useful lives are:

Buildings	10 - 25 years
Machinery and equipment	5 - 10 years
Other tangible fixed assets	2 - 5 years

Tangible fixed assets are revalued in case of any permanent impairment.

Tangible fixed assets under construction are stated at the lower of production cost or net realizable value. Production cost includes materials, direct labor, an attributable proportion of manufacturing overheads based on normal levels of activity. Net realizable value is based on estimated selling price, less further costs expected to be incurred for completion and disposal.

e) Financial fixed assets

Investments in subsidiaries and associating companies are stated at net asset value if the company effectively exercises influence of significance over the operational and financial activities of these investments. The net asset value is determined on the basis of the accounting principles applied by the company.

f) Inventory

Raw materials, supplies and trade goods are stated at the lower of (first-in, first-out) purchase price or net realizable value. Finished products and work in process are stated at the lower of production cost or net realizable value.

Production cost includes materials, direct labor, an attributable proportion of manufacturing overheads based on normal levels of activity. Net realizable value is based on estimated selling price, less further costs expected to be incurred for completion and disposal.

g) Accounts receivable

Accounts receivable are stated at face value, less an allowance for possible uncollectable accounts.

h) Income taxes

Income taxes are calculated based on the corporate income tax systems applicable in the respective countries. The value of inventories, tangible fixed assets, accounts receivable and provisions for tax purposes are different from the value in the statutory accounts. Deferred tax assets resulting from fiscal loss compensation are valued at nil.

i) Financial instruments

On-balance sheet financial instruments are stated at nominal value unless indicated otherwise.

The company uses an off-balance sheet financial instrument (interest cap) to hedge its potential exposure to movement in interest rates.

j) Recognition of income

Net sales are determined on the basis of the value (excluding taxes) of goods invoiced, less discounts, rebates and similar charges granted to customers. Sales are recognized upon delivery of the goods. Cost of sales is recorded in the same period as sales are recognized.

Other revenues and expenses are recorded in the period in which they originate.

4. Financial Fixed Asset

The movement in investments in unconsolidated companies is as follows:

The company has granted security over its assets in favour of the financial institutions to support borrowings from those financial institutions by the company and its subsidiaries within the BCcomponents Holdings group.

11. Income Taxes

The company and its Dutch wholly owned subsidiaries constitute a fiscal entity. The group has a loss carryforward of approximately (euro) 150.0 (2000 - (euro) 100.0), which is available to reduce future tax liabilities.

12. Credit Facilities

The company and its subsidiaries have credit facilities available under a revolving arrangement and local loans amounting to (euro) 72.5 (2000 - (euro) 72.3). At December 31, 2001 these facilities were used for an amount of (euro) 53.6 (2000 - (euro) 46.1).

The credit facilities with certain banks are secured by pledging of the company's assets. In addition the company is not allowed to pledge assets to other third parties.

13. Commitments

a) Purchase commitments

The company and its group companies have in their ordinary course of business activities entered into purchase commitments for raw materials and supplies, which amount to approximately (euro) 3.9 at December 31, 2001 (2000 - (euro) 24.6).

Purchase commitments in connection with the acquisition of fixed assets amount to approximately (euro) 1.0 (2000 - (euro) 4.6).

b) Rental obligations and operational lease commitments

Total commitments in connection with rental obligations and operational lease agreements amount to approximately (euro) 10.4 (2000 - (euro) 11.4). The short-term portion of these commitments amounts to approximately (euro) 2.7 (2000 - (euro) 2.4). The portion that is due after 5 years amounts to approximately (euro) 2.8 (2000 - (euro) 2.9).

c) Guarantees

The guarantees provided by the company on behalf of third parties amount to (euro) 2.1 (2000 - (euro) 1.0) and relate to bank guarantees.

14. Segment Information

a) Business Segments

The business segment composition of the consolidated net sales is as follows:

	2001 (euro)	2000 (euro)
Capacitors	196.9	235.9
Resistors	159.7	187.6
Other	9.5	33.3
	-----	-----
	366.1	456.8

	-----	-----
	366.1	456.8
	=====	=====

15. Personnel

The average number of personnel during the year was approximately 3.930 (2000 - 4.092) employed in the following functional areas:

	2001	2000
Production and engineering	3.041	3.212
Sales and marketing	212	207
Distribution and Administration	677	673
	-----	-----
	3.930	4.092
	=====	=====

The number of personnel does not include the 1.057 (2000 - 1.184) (sub) contractors in Danshui (China).

16. Financial Instruments

The company (uses in the normal course of business) various types of financial instruments. Financial instruments include those recognized in the balance sheet (on-balance sheet) and off-balance sheet financial instruments.

The estimated fair value of a financial instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Fair values are determined from listed market prices, price quotations from banks or from pricing models.

The company has procedures and policies in place to control risks related to financial instruments. These policies and procedures include a clear segregation of duties between operating, settlement, accounting and controlling of all financial instruments used. (In addition, the geographical spread of the company's activities limits the exposures to concentrations of credit or market risk.) The company's management is involved in the risk management process.

a) On-balance sheet instruments

Financial instruments in the balance sheet substantially include accounts receivable trade/ cash/ securities/ long-term loans/ short-term loans/ accounts payable trade.

The estimated fair values of on-balance financial instruments at December 31, 2001 approximate their carrying amounts unless indicated otherwise.

The remainder of this note relates to off-balance sheet instruments.

b) Interest derivatives

Interest derivatives are mostly related to long-term financing arrangements and are used to manage exposure to movements in interest rates and/or to adjust the fixed rate or floating rate nature of financing arrangements.

An interest rate cap of (euro) 30.0 with a strike of 5.5% against one-month EURIBOR is still outstanding, to expire on May 22, 2002. The fair value of this interest rate cap is not significant.

c) Interest rates

The variable interest rate, substantially based on LIBOR to be paid will change to the extent that rates fluctuate. Such changes may be substantial.

17. Cash Flow Statement

The cash flow statement is derived from the statement of income and other changes between the opening and closing balance sheets, eliminating the effect of currency translation differences upon consolidation. The cash in the cash flow statement includes time deposits. Movements in provisions for assets have been included under the item provided for.

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following unaudited pro forma condensed consolidated financial statements give pro forma effect to the acquisition using the purchase method of accounting and the assumptions and adjustments set forth in the accompanying notes to the pro forma financial statements. On December 13, 2002, Vishay Intertechnology, Inc. ("Vishay") acquired BCcomponents Holdings B.V. ("BCcomponents" or "BCC"), a leading manufacturer of passive components with operations in Europe, India and the Far East. The product lines of BCcomponents include linear and non-linear resistors; ceramic, film and aluminum electrolytic capacitors; and switches and trimming potentiometers.

Vishay acquired the outstanding shares of BCcomponents in exchange for ten-year warrants to acquire 7,000,000 shares of Vishay common stock at an exercise price of \$20.00 per share and ten-year warrants to acquire 1,823,529 shares of Vishay common stock at an exercise price of \$30.30 per share. In the transaction, outstanding obligations of BCcomponents, including indebtedness and transaction fees and expenses, in the amount of approximately \$224 million were paid (\$191 million) or assumed (\$33 million). Also, \$105 million in principal amount of BCcomponents' mezzanine indebtedness and certain other securities of BCcomponents were exchanged for \$105 million principal amount of floating rate unsecured loan notes of Vishay due 2102. The Vishay notes bear interest at LIBOR plus 1.5% through December 31, 2006 and at LIBOR thereafter. The interest note could be further reduced to 50% of LIBOR after December 31, 2010 if the price of Vishay common stock trades above a specified target price, as provided in the notes. The notes are subject to a put and call agreement under which the holders may at any time put the notes to Vishay in exchange for 6,176,471 shares of Vishay common stock in the aggregate, and Vishay may call the notes in exchange for cash or for shares of its common stock after 15 years from the date of issuance. Vishay has granted registration rights for the warrants and the shares of common stock issuable in respect of the warrants.

The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2001 and the nine months ended September 30, 2002 are based on the individual historical statements of operations of Vishay and BCcomponents and combine the results of operations of Vishay and BCcomponents for the year ended December 31, 2001 and the nine months ended September 30, 2002, as if the acquisition had occurred as of January 1, 2001. The unaudited pro forma consolidated condensed balance sheet as of September 30, 2002 is based on the individual historical balance sheets of Vishay and BCcomponents and gives effect to the acquisition as if it had occurred on September 30, 2002.

The unaudited pro forma condensed consolidated financial statements are based on estimates and assumptions. These estimates and assumptions are preliminary and have been made solely for purposes of developing this pro forma information. Unaudited pro forma consolidated financial information is presented for illustrative purposes only and is not necessarily indicative of the combined financial position or results of operations of future periods or the results that actually would have occurred had the acquisition occurred on the dates indicated. The pro forma consolidated financial information does not give effect to any cost savings that may result from the integration of the Vishay and the BCcomponents businesses. The pro forma adjustments are subject to change pending a final analysis of the fair values of the assets acquired and liabilities assumed. The impact of these changes could be material.

This unaudited pro forma consolidated financial information is based upon the respective historical consolidated financial statements of Vishay and BCcomponents and related notes thereto, and should be read in conjunction with those statements and the related notes.

NOTES TO UNAUDITED PRO FORMA CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS
(Dollars in thousands)

(A) Pro forma adjustments to record the acquisition reflect the following:

Vishay acquired the outstanding shares of BCcomponents in exchange for ten-year warrants to acquire 7,000,000 shares of Vishay common stock at an exercise price of \$20.00 per share and ten-year warrants to acquire 1,823,529 shares of Vishay common stock at an exercise price of \$30.30 per share. Vishay has preliminarily estimated the value of the warrants to be \$41 million using the Black-Scholes option pricing model. Vishay also paid cash consideration of \$191 million for the payment of indebtedness and transaction fees and expenses.

The purchase price and related costs are as follows:

Cash consideration:	
Existing Cash.....	75,000
Borrowings.....	116,000
Warrants issued.....	41,000
Acquisition costs.....	3,000

Total purchase price.....	\$235,000
	=====

(B) Under purchase accounting, the total purchase price is allocated to assets acquired and liabilities assumed based on their estimated fair values. The final allocation of the purchase price will be determined upon completion of an evaluation of the fair value of BCcomponents' tangible and identifiable intangible assets acquired and liabilities assumed at the date of the acquisition. Purchase accounting adjustments have been preliminarily estimated by Vishay's management based upon currently available information. There can be no assurance, however, that the estimated adjustments represent the final purchase accounting adjustments that will ultimately be determined. The following pro forma adjustments have been made to reflect the estimated fair values of the acquired assets and liabilities assumed.

	Net Assets

	Increase (Decrease)
Estimated restructuring costs.....	(85,000)
BCC debt paydown.....	180,000
Pension obligations.....	(300)
Elimination of BCcomponents deficit	(240,074)
Cost in excess of net assets acquired.....	380,374

	\$235,000
	=====

(C) For purposes of determining the pro forma effect of the Bcomponents acquisition on the Vishay consolidated statement of operations, the following estimated pro forma adjustments have been made:

	Increase (Decrease) Income Year Ended 12/31/2001
1. Reconciling items of Dutch GAAP to U.S. GAAP	
Restructuring expense - record expense provisions in proper period under U.S. GAAP	(12,456)
2. Adjust costs of products sold for U.S. manufacturing operations not acquired	7,368
3. Interest expense reduction due to refinancing of BCC debt by Vishay	11,788
4. Income tax expense applicable to adjustments at a 38% assumed rate.....	(4,479)
	----- \$ 2,221

Under Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets", goodwill and intangible assets deemed to have indefinite lives are no longer amortized and are subject to annual impairment tests. Vishay adopted this new standard effective January 1, 2002, except that the new rules were effective for any business combination completed after June 30, 2001. The pro forma financial statements, therefore, do not reflect any amortization expense relating to the goodwill arising from the acquisition. Beginning January 1, 2002, Vishay no longer records amortization on its goodwill, but no adjustment for this has been reflected in the pro forma presentation for the year ended December 31, 2001.

	Increase (Decrease) Income Nine Months Ended 9/30/2002
1. Adjust reported Bcomponents from Dutch GAAP to U.S. GAAP	
Selling, general & administrative expense - reflect expenses in accordance with U.S. GAAP	(51)
Restructuring expense - record in proper expense provisions period under U.S. GAAP	3,451
2. Adjust cost of products sold for U.S. manufacturing operations not acquired	4,699
3. Interest expense reduction due to refinancing of BCC debt by Vishay	16,019
4. Income tax expense applicable to adjustments at a 38% assumed rate.....	(6,087)
	----- \$18,031

(D) Amounts for Bcomponents have been translated from Euros to U.S. Dollars as follows:

Balance Sheet Data - at the approximate exchange rate in effect as of
September 30, 2002 (1.0245 Euro per U.S. \$1)

Income Statement Data - at the approximate average exchange rate in effect
for the year ended December 31, 2001 (1.1215 Euro per U.S. \$1)

Income Statement Data - at the approximate average exchange rate in effect
for the nine months ended September 30, 2002 (1.0826 Euro per U.S. \$1)
